## Library Q&A

**Question:** *Why did it take so long to renovate the basement restrooms? Can you please address this in the Library newsletter?\**

**Answer:** If you have been to the basement restrooms, you most likely have seen the fabulous Pepto-Bismol pink and Baby Blue hue that was selected as our color scheme. Those colors are not easy to come by and required us to time warp back to the 1960s to get those exact shades. We ran into a few problems, yada, yada, yada and it took 4 months to complete.

In actuality, while it may have seemed like an eternity, the basement restrooms took no longer to renovate than the restrooms on the 2nd and 3rd floors.

One thing to keep in mind: when you think of an academic enterprise --think tortoise rather than cheetah.

## HAPPY PRESIDENT'S DAY!

## Videos moved to the 1st Floor

The DVD and VHS film collection has moved out of hiding in the basement to the southeast corner of the 1st floor stacks. The collection is constantly updated with new additions and has recently incorporated many films from the School of Film and Photography collection.
