Reading responses

This assignment must be typed (single spaced; 11- or 12-point font)

1-2 pages

Format: MS Word, MS Publisher, or Adobe InDesign

Upload to D2L by 11:59pm Friday the week of the class (due dates listed below)

Purpose, skills, and knowledge:

- Develop skills in summarizing concepts and communicating the concepts concisely.
- Apply your understanding of a topic to a real-world context – this will help you apply the concepts in the readings to something you can see and/or experience.
- Contribute to your ability to describe how different planning concepts/tools are utilized in planning, while adding to your expertise/interest in a particular topic.

Tasks:

Write a response to two topics (sign up in class). Reflect on a particular aspect of a reading of your choice that assigned for that day. Write a response reflection about the reading. Your fictional audience is the general public. Be explicit about which part of the reading you are responding to and take a position on the reading – do you agree, disagree, somewhat agree and **why**. Then, find a real-world example of what was discussed in the reading (photo/ map/ website/ video/ planning document/ ordinance/ podcast/ news report/ song). Discuss this example and why it relates to the reading. Insert or provide a link to the example in the response paper (and cite your sources). I will use examples you give me in class (and I may ask you to talk about your example).

This is work collected as part of the Montana State University Library COVID-19 Special Collection in response to the pandemic of 2020.
