(1) How has COVID-19 impacted you as a student? Share as much or as little as you’d like. This is your reflection and I want to be sensitive to everyone’s experiences;

My experience with the sickness going around has been overwhelming, anxious and nervous. My routine is messed up which makes it hard as well. Not being able to see my friends as I used to is difficult.

(2) As a future educator (or professional), I’d like you to think through what you’d do for your students/families/clients if the COVID-19 pandemic ‘hit’ post-graduation—what measures would you put in place to connect and support?

I would share with them a social story about the sickness and an experiment so I can teach them why it’s important to wash hands and have them help me clean while also teaching them the importance of keeping things clean and but also making it fun in a way and not stressful.

And finally, (3) how can I support you for the rest of the semester? What things do I need to make sure to have in place to ease this time of uncertainty?

N/A
