

Equine Glucose Data [dataset]

Author: Jennifer Weeding, Mark Greenwood, Shannon Moreaux, Jyme Nichols

DOI

<http://doi.org/10.15788/M2QP4R>

Date uploaded

April 2016

Description

This data set contains longitudinal glucose measurements on a set of eight horses with pseudo-replicates of the glucose values for each blood draw with the time (in minutes) from initiation of the data collection. More information is available in Weeding's (2016) dissertation "Bayesian Measurement Error Modeling with Application to the Area Under the Curve Summary Measure," <https://scholarworks.montana.edu/xmlui/handle/1/9867>.
